Aboriginal Program

Approved convergent production applications for the Aboriginal Program as of March 31, 2011 are listed below. Committed funds from the program total \$4.4 million for television components and \$1 million for digital media components against a budget of \$5.4 million. Approved Aboriginal Program Development applications can be found with other Development program results.

Approved applications are shown with the title of the convergent project, the applicant production company, region of production, project component viewing platform, the second platform meeting the convergence criteria, the content type of the digital media component, and the amount committed to each component. If the digital media component receives no funding from the CMF, it will not appear on this list. For inter-provincial co-productions, the region of control reflects the residence of the majority co-producer and the location of principal photography.
